[4064] System And Analysis Design — Midterm Exam

Date: 2026-04-23 | Duration: — min | Total: 60 pts

FULL NAME: Beyza Yavuz

STUDENT NUMBER: 2 4 0 2 4 8 0 0 0 0

Write legibly inside each box

Instructions:

- Multiple Choice — Fill in the circle completely as shown: ● . Select only ONE answer per question.

⚠ AI-Evaluated Exam

This exam paper will be digitally scanned and evaluated by an AI system. Do NOT scratch, fold, or damage the black corner markers (◼), the QR code, or the answer boxes. Write your answers clearly and only inside the designated areas. Any damage to the markers may result in processing errors.

Question1 (10 pts)

Which of the following is the first phase of the System Development Life Cycle

- ● A) Systems Design
- ○ B) Systems Implementation
- ○ C) Systems Planning
- ○ D) Systems Analysis

Question2 (10 pts)

What is the primary goal of "Feasibility Analysis"?

- ○ A) To write the source code of the project.
- ● B) To determine if the system is worth building and if it can be completed.
- ○ C) To design the user interface.
- ○ D) To train the end-users.

Question3 (10 pts)

In a Data Flow Diagram (DFD), what does an open-ended rectangle represent?

- ○ A) Data Store
- ○ B) Process
- ○ C) External Entity
- ● D) Data Flow

Question4 (10 pts)

Which SDLC model is known for its iterative approach and emphasis on risk assessment?

- ○ A) Waterfall Model
- ○ B) Spiral Model
- ● C) Linear Model
- ○ D) V-Model

Question5 (10 pts)

What is the main purpose of "Requirements Elicitation"?

- ● A) To test the final software for bugs.
- ○ B) To gather information from stakeholders about what the new system should do.
- ○ C) To create the database schema.
- ○ D) To choose the programming language.

Question6 (10 pts)

Which tool is used to visualize the relationship between entities in a database?

- ○ A) Use Case Diagram
- ○ B) Gantt Chart
- ○ C) Entity-Relationship Diagram
- ● D) Context Diagram
